## CISCO NETWORKING ACADEMY AT SSR GSP

SSRGSP is an official partner of the Cisco Networking Academy, a globally recognized platform for IT and networking education. This partnership enables students to gain industry-relevant skills in networking, cybersecurity, and emerging technologies through a structured, hands-on approach. Students of the Advanced Networking and System Administration course will benefit from an updated curriculum and globally recognized certifications. The program enhances employability, supports faculty development, and provides access to high-quality digital learning resources and labs.

It also ensures availability of skilled, job-ready talent aligned with industry needs.

This collaboration strengthens SSRGSP's commitment to building a future-ready workforce and global standards of learning.
